**Sebel Chair**

As part of our ongoing commitment to sustainability, we're introducing the Sebel Chair, manufactured entirely from 100% post-consumer waste.

Unlike most chairs that incorporate a colour masterbatch (typically 3% of a chair's weight and not recycled), Sebel avoids this addition ensuring that the entire chair is made from 100% post-consumer waste. As a result of this, Sebel comes in a colour we call Grey-dient, meaning each chair varies slightly in shade, with subtle differences in grey tones reflecting the nature of the recycled material.

Lightweight, antistatic, stain-resistant, and easy to clean, Sebel is designed to support natural posture and meet the demands of everyday use in learning environments, with durable polypropylene legs built to withstand impact and wear.
